"Talking" farebox meets ADA requirements for the visually impaired. Advanced Farebox technology to communicate with your customers enhances acceptance of a new AFC program and improves the rider's experience and confidence.

Our unique bill-bypass feature allows you to continue collecting bills for payment even if the bill validator is jammed.

Drivers like LECIP's easy to read Operator Control Unit (OCU). Our OCU's anti-glare, high resolution, color TFT screen offers a state-of-the-art interface for drivers.
